

AFC2 Recall Sheet

Toft Audio Designs

The image shows the control panel for the AFC2 Dual Mic Pre/EQ. It is divided into two channels, Channel One and Channel Two. Each channel has a gain knob (0 to +20 dB), a low-pass filter knob (0 to 300 Hz), a low-shelf EQ knob (0 to +15 dB), a high-pass filter knob (0 to 100 Hz), a low-mid EQ knob (0 to +15 dB), a high-mid EQ knob (0 to +15 dB), a high-shelf EQ knob (0 to +15 dB), and a high-pass filter knob (0 to 10k Hz). There are also input selector knobs for Line, Mic, and Rev, and a +48V phantom power switch. The Toft Audio Designs logo and 'Instr' indicator are also present.
